Looking for new things to read in the future.

#### Motion 2: Discussion for 15 Minutes on Hybrid Meeting

Jayk expressed the mental drain that running hybrid causes, and makes it clear that it would not be healthy for him to continue to bring the equipment each week.

Opened for Discussion:

- Clarified the only piece of equipment that is not JayK's is the tv from the church.
- Someone spoke on the agreement that it is indeed someone technical to run that for everyone. Acknowledged that it's much easier if the facility itself is already in place. Acknowledged that this may be a change for the future/for the good to be able to reach people that cannot make it or prefer attending virtually.
- Acknowledge that hybrid is the "new reality." When i have been hosting a meeting that has moved to a hybrid... I have noticed that it is challenging. One suggestion would be to split the meeting to two meetings. One for virtual meetings, one for in person meetings.
- Thinking that I probably agree that remaining hybrid is important and that forming a hybrid committee would be helpful in discussing how to move forward.
- Teach a couple hybrid classes, acknowledges that if it moved to completely virtual that potentially more people would continue to attend. But also acknowledge that obtaining literature is still a bit part of this too.
- Preference would be to make it all in person. Spoke about the importance of building a community in person, as well as consistent place to get literature and handle treasury
- Appreciate everyone's input. Spoke of another meeting that had an intergroup that was hybrid, and when they stopped hybrid MORE people attended. Spoke on the benefits of meeting face to face with other members, and that meetings that have moved back to all in person that have continued to grow since being fully in person.

- Question: How much might the equipment cost to obtain? Speaker/Microphones/Cables/Extension Cords/Mic Stands/Monitor/Computer/Internet -
- Spoke to the ease of having it virtually in that it might open the meeting to more people.
- Spoke of the experience of running hybrids over time, and that it is not sustainable.
- As literature Rep we attempted to have 6 in person reps that was not at all sustainable, nor did it work. Finances became messy, and it was very much a headache (even with 7 people doing the job that one person generally does in person)
- Treasury not much info but generally significantly less money came in when we were virtual only
- Enjoy being in person since it has continued to grow, and even though it's not a traditional 12 step meeting, it is still beneficial for my recovery.

## Voted to close discussion and continue elections.

#### Motion 3: Webmaster - Read through the webmaster service manual.

Two Nominations/Volunteers: Tamara voted into position.

## 8. Announcements for the Good of the Order
