

BULLET POINTS October 9, 2022

The **free pizza at Intergroup** was incredible this past month! Join us **next month in person for more free pizza**, plus you can **pick up literature in person for your meeting, get copies of the Bottom Lines for your meeting, make contributions to the Treasurer and get reimbursements in person, buy chips for your meeting, learn about what's happening in Los Angeles SLAA, and have FUN!**

- **2023 Elections for LA Intergroup have started!**

So far, we have elected the following commitments to **start their tenure in January 2023:**

- Secretary of LA Intergroup - Claire C
- Webmaster - Tamera

These folks will **start doing those commitments in January of 2023..**
Until then, the current folks will have the commitments!

Lots more elections next month! For things like Registrar, Virtual Registrar, Bottom Lines Editor, ABM Delegates, Audio Library Chair, and so many more!

- **This month we had an in depth discussion whether Intergroup should be In-Person Only, Zoom Only, Hybrid, or What for 2023. More discussions and motions to be made over next two months.**

Summary of discussion:

- Current Secretary and overall operator of the hybrid / Zoom equipment is using \$600-950 worth of equipment to run the hybrid experience himself with sponsee help. In order to continue hybrid experience, we would need a tech expert to take over for him in 2023 and Intergroup to buy equipment to run it.
- Current Secretary feels that hybrid is not a sustainable option, that you need a new tech expert dedicated member to run it each year, and that keeping the same member running it each year is against Tradition 9.
- Current Secretary has been asked by meetings in multiple programs to help them run hybrid and has seen it not be sustainable in any of those meetings. He has experience running a hybrid meeting for 1.5 years and being unable to pass the torch to anyone, even dedicated folks.

Comments from meeting members included:

- We should form a committee and keep doing hybrid
- We should switch back to Zoom Only
- We need in-person because literature is impossible to distribute without meeting in-person and so many things are only feasible in-person
- The in-person Intergroup community has been growing and outnumbering the Zoom participants
- One fellow offered we should have two separate Intergroup meetings at the same time, one in person and one on Zoom
- One fellow noted that hybrid is sustainable in a location that has the technology built in, and that we should move the Intergroup meeting location from Silverlake to Culver City
- All viewpoints were represented and no consensus was found in this ongoing discussion.

Next month we'll:

- Elect more commitments
 - Continue Hybrid/Zoom/In-Person Intergroup Meeting Discussion
 - May create new commitments to cover duties current secretary is covering: Pizza picker-upper? Bullet Points maker? Meeting Set-Up? Or make those duties official parts of the Secretary commitment.
